

Microbiology Webinar Outline

8:00 to 9:20	Activated Sludge Floc Microscopic Identification Floc Bacteria Identifying Upset Floc Bacteria India Ink Stain & OUR Testing
9:20 to 9:35	Break
9:35 to 10:45	Amoebae & Flagellates Ciliates & Rotifers How to Control Nematodes, Midge Flies, and Daphnia
10:45 to 11:00	Break
11:00 to 12:00	Types of Filamentous Bacteria Identification and Control Filamentous Stains
12:00 to 1:00	Lunch
1:00 to 2:30	Nitrification Nitrosomonas & Nitrobacter Denitrification Phosphorus Removal Phosphate Accumulating Organisms
2:30 to 2:45	Break
2:45 to 3:45	Nutrient Deficiency Toxic Upsets Acclimation Anaerobic Bacteria
