

Meet & Greet

- To make your webinar experience more enjoyable, we recommend first time webinar attendees or those that need to check ability to connect through Webex with their device, to contact us to register for a Meet & Greet.
- You do not need to be scheduled for a webinar to do a Meet & Greet. You are welcome to learn about our webinars through a Meet & Greet session.
- Please email me at Richard@waltersenvironmental to schedule a Meet & Greet. I have limited availability during the week with Mondays & Fridays being the best days.
- The Meet & Greet session will help familiarize you with the webinar login procedure and how to interact during the webinar session
- The Meet & Greet session will allow time to troubleshoot any issues before the day of the webinar with one on one help.
