

Pump Troubleshooting Webinar Outline

8:00 to 9:20	Positive Displacement Pumps Feed Pump Issues Pumping Sludge and Viscous Chemicals
9:20 to 9:35	Break
9:35 to 10:45	Centrifugal Pumps General Troubleshooting tips Pump and Motor Alignment Cavitation
10:45 to 11:00	Break
11:00 to 12:00	Valves Variable Frequency Drives Affinity Laws
12:00 to 1:00	Lunch
1:00 to 2:30	Centrifugal Pump Problems Packing Mechanical Seals Bearings Impellers
2:30 to 2:45	Break
2:45 to 3:45	Pump and System Curves Vibration Analysis Thermal Imagery Troubleshooting Summary
