## Package Plant Operations Webinar Outline

8:00 to 9:20	Package Plant Overview Controlling Influent Flows Controlling RAS Rates
9:20 to 9:35	Break
9:35 to 10:45	Maintaining Clarifiers Need for Wasting Interpreting Settleability Rates Microscopic Analysis
10:45 to 11:00	Break
11:00 to 12:00	Microbiology Oxygen Uptake Rates Wasting Calculations Foaming and Bulking
12:00 to 1:00	Lunch
1:00 to 2:30	Blowers & Diffusers Ammonia Removal Nitrification Inhibition Intermittently High & Low Ammonia Loadings
2:30 to 2:45	Break
2:45 to 3:45	Aerobic Digesters Disinfection Flow Measurement Making a Checklist for Your Plant
