

Webinar Audio Instructions

- After joining, you still need to connect the audio to be able to hear the webinar.
- If your computer has speakers or headphones, then you can use your computer as the audio source.
- In the “Audio” or “Audio Conference” box, click on the little arrow by the “Use Computer for Audio” tab then click the “Call Using Computer” box.
- Microphones make communication easier, but they are not mandatory.
- See next page for Audio Instructions using Phone for Audio.

Webinar Audio Instructions

- If you do not have computer speakers or headphones, then, click on the little arrow by “Use Phone” to reveal the dial in number, access code, and attendee ID. Then dial that number on a landline or mobile phone and enter the cod & ID..
